

# From the Sun to Pluto

## Wanted: Students to Work on Planetary Science Research

The NASA/APL Internship Program provides unique opportunities for university students to work on NASA missions or other space-related research opportunities at APL.

Projects available in planetary science include working with newly acquired data from the MESSENGER mission to Mercury and the Dawn mission to Vesta.

The Applied Physics Laboratory (APL) is a not-for-profit center for engineering, research, and development. Located north of Washington, DC, APL is a division of one of the world's premier research universities, The Johns Hopkins University.

To learn more about APL, visit <http://www.jhuapl.edu/>.

Join us for 10 weeks this summer, and be a part of this extreme exploration!

**Deadline: January 17, 2012**  
**Apply: <http://APLapp.com>**
