I. OTHER POLICY STATEMENTS	16

WELCOME

To incoming graduate students - we are happy that you are joining us and hope that your stay will be exciting, demanding, and rewarding. To returning graduate students - it is good to have you back.

The purpose of the Handbook is to tell you what to do and when. Incoming students should find it helpful in orienting themselves. Students already in residence should check it over to see if changes have occurred during the year.

QUESTIONS OR PROBLEMS? YOUR FIRST LINE OF CONTACTS IN E&PS

Dr. Thomas Haine, Professor and Chairman, Earth and Planetary Sciences
Dr. Anand Gnanadesikan, Associate Professor and Director of Graduate Studies
Ms. Teresa Healy, Administrator
Ms. Kristen Gaines, Academic Program Coordinator
Ms. Kim Trent, Administrative Coordinator

A. THINGS EXPECTED OF ALL STUDENTS EVERY YEAR

1. Meet with Advisor and Advisory Committee.

As an introduction for first-year students, your primary advisor is the faculty member closest to your field. He or she along with two other members of the faculty will form your advisory committee. Your advisor will meet with you prior to each semester and will help you select courses and plan a program. If you do not yet have a specialty, you may consult with the Chair or the Director of Graduate Studies. However, remember that all of the faculty are willing and eager to help. You should feel free to seek advice from all faculty, especially those in your own areas of interest. As your contacts with the faculty develop, the time will come when you will have a clear idea who you would like to have as a thesis advisor if you do not have one when you arrive.

Do not forget that the aim of this Department is to allow you, in consultation with your advisor and your committee, to devise a program that fits your talents, interests, and goals. It is up to you to propose a program; it is not up to your advisor or your committee to tell you what to do. On the other hand, your advisor and committee have experience in designing workable programs, and you will probably want to give your advisor's and your committee's reactions to your proposed program a good deal of weight, especially during your first year or two.

Your advisory committee will also meet with you at the end of each semester to discuss your progress and goals for your future learning.

2. Register for Courses.

Registration information, including registration dates, is provided each semester by the Office of the Registrar. With the exception of first-time enrollment for new graduate students, all students are strongly encouraged to register online at:

<https://registration.jhu.edu/>

You should make sure to register during the official period in order to avoid a University-imposed late fee (\$150 - \$300) that you would be responsible for. Do so even if your program is not finalized – you can easily add or drop courses later.

Graduate students in full-time residence must take a minimum of twelve credits each semester. If formal courses fail to add up to twelve credit hours, the difference is to be made up as Research (270.807-808). This is crucial for international students who must maintain full-time student status to retain their visas.

3. Register for and Attend E&PS Colloquium Course.

All graduate students are required to register for the E & PS Colloquium course every semester. E & PS Colloquium consists of two parts: Journal Club and the Bromery Seminar Series. Weekly attendance at both Journal Club and the Bromery Seminar is required of all students.

Journal Club

Intent and Level of Presentation: The intent of Journal Club is twofold. It informs the faculty and the Department on the research topic and research progress of each student. It also provides an environment for students to develop and hone a mature and professional style of delivering research talks.

You should present your motives and research achievements in the most understandable fashion possible. The heart of presentations should be as advanced and scholarly as possible and free from the constraint of insuring that all attendees fully understand it in all aspects. Students should, however, make every effort to preface and conclude the talk with appropriate remarks to furnish the average listener with a contextual and meaningful understanding of the overall presentation.

Through Journal Club, both faculty and students develop an appreciation of research in other areas and also develop an opinion of the scientific strength of students not in their immediate area of research. In this respect, it is essential that students always put their best foot forward. Students and faculty alike are expected to consistently attend Journal Club regardless of the presentation topic.

Style of Presentation: It is natural to expect the most advanced presentations to be by the most advanced students. New students may wish to present research completed elsewhere, a proposed research topic, or even a critical review of one or more timely and influential journal articles. In succeeding years, students should aim at showing progress either in level of learning or research. Second year students, for example, might discuss early research results, a sharply focused and in-depth understanding of a proposed research problem, or even a scholarly overview of a research area. By the third year students should have a clear line of original research to report on; it may be incomplete, but its many facets can be presented.

Use of PowerPoint is standard, and presentations should definitely not be read. Cues for the speaker can be cleverly placed directly on the screen. The most enjoyable and effective presentations most often are those that appear spontaneous and lively.

Talks should be limited to 20 minutes plus a minute or two for introduction and five minutes for questions. To be fair to all, this schedule is to be adhered to even when there is a single presentation. After the talk, students are required to seek out three or more faculty members for their impressions of the effectiveness of the presentation and of ways in which to strengthen future presentations. Dr. Tom Wright is in charge of the Journal Club.

Abstracts: Abstracts are to be written in the active voice, 250 words in length, and in the format of an abstract for a professional meeting (AGU, GSA, Goldschmidt, etc). They are to be taken seriously and

should be offered for constructive criticism to two or three people (including one's advisor) before posting on the Friday before the presentation.

Bromery Seminar Series

As part of the E & PS Colloquium course, students are required to attend the weekly Bromery seminars that are described in greater detail below.

4. Attend Departmental Seminars.

The Department sponsors four formal seminar series named in honor of distinguished alumni or former faculty members. The Bromery Seminars are held weekly and may involve any topic of interest to members of the Department. Graduate students are required to attend all weekly seminars, regardless of the topic, for the same reason they are expected to attend all meetings of Journal Club. Students are encouraged to ask questions of the speaker as is expected after any seminar or talk at a professional meeting. Students are also encouraged to suggest individuals of their choosing to be invited as Bromery Seminar speakers (see your advisor, and then talk with Kim Trent). Inviting a speaker, however, carries the responsibility of arranging their travel logistics (e.g., airport pickup and drop off), a schedule of meetings with interested members of the Department, and their social schedule (lunch, dinner).

Three additional special seminar series involve inviting distinguished scientists to spend several days in the Department each year. The Cloos Scholarship and Lectureship is primarily intended for those in the geological sciences, the Elsasser Lectureship for those in the atmospheric sciences, geophysics, and geobiology, and the Benton Lectureship for those in the atmospheric sciences and meteorology. The faculty usually choose the Cloos, Elsasser, and Benton Lecturers, but student input is encouraged. Students are encouraged to ask questions after the lectures and to fully participate in all related social functions.

Other groups less formally meet weekly to discuss petrology, GFD, and other topics, where attendees are expected to participate by describing their current research efforts in detail, even if they are in the formative states or incomplete. Sometimes questions are posed rather than answers given, but all who attend are expected to participate.

5. End-of-semester Evaluation of Student Progress.

In conjunction with your faculty advisory committee, all students are required to complete a review of his or her work at the end of each semester. The evaluation form contains a portion for both the student's assessment of his or her own work and for the faculty members' assessment, as well as goals for the upcoming period of study. The faculty will evaluate the progress of every graduate student each year at a faculty meeting held at the end of both the Fall and the Spring semesters. After evaluation and discussion of your record and the report from the meeting with your advisory committee, they will decide if you are making satisfactory progress. If not, they will either suggest remedies, or in extreme cases, decide on termination from the program.

6. Keep your Advisor and the Staff Informed of your Plans at All Times.

If you are planning any change in status – going on leave of absence, becoming a nonresident student, or withdrawing from the program – see Kristen Gaines. It is MOST important that we be informed of your plans at all times.

7. Seek Advice from Other Students.

The more advanced graduate students are available to incoming students for informal advice and guidance, not only on program problems, but on matters of general Departmental and University life. If you have a question, talk to one of them; they have probably been through it!

B. RESPONSIBLE CONDUCT OF RESEARCH TRAINING

Every E & PS graduate student is required to receive the in-person education and training in the Responsible Conduct of Research (RCR) by Intersession of their second year. The trainee is expected to register for and complete the RCR in-person course. The course only needs to be taken once. Training dates and times will be communicated to you throughout the year.

The online CITI Training in RCR may be utilized if individuals provide appropriate documentation that they are unable to attend one of the in-person courses due to unusual and well-justified circumstances and receive permission from the KSAS Dean of Research in advance.

C. DEGREE REQUIREMENTS

1. Requirements for the Ph.D. Degree.

There are no formal course requirements for the Ph.D. degree in terms of number of courses or credit hours. Your advisory committee, however, will consult with you and advise on a program of coursework you will need to attain your professional goals. The formal requirements for the Ph.D. degree are:

(1) *Departmental Qualifying Exam (DQE)*: Graduate students in their second year of residence, normally in their third semester, are expected to present themselves for oral examination before a committee of the Department for the DQE. The exam can cover anything relevant to your program, but usually focuses on your courses and general knowledge in Earth and Planetary Sciences. The purpose of this examination is to decide whether (1) you are eligible to continue to the Ph.D., (2) you can try for an M.A., but not for the Ph.D., (3) you must depart at the end of the second year. In certain cases a student may be allowed a second DQE if the first is unsuccessful. The first attempt is normally in November, and if allowable, the second in February. This timing allows you an opportunity to apply elsewhere for the following academic year if necessary. The absolute final deadline for the DQE is the end of the final exam period of the fourth semester. Failure to meet the deadline may be grounds for termination from the program.

If you are now at the beginning of your second year of residence, please pick up a form from Kristen, which needs to be completed in advance of the DQE date. It requires the nominations of three faculty members to examine you. Normally, these would be the members of your faculty advisory committee.

(2) *Thesis Proposal*: At the end of the second year, you are expected to present a written thesis proposal, to be approved by two faculty members, usually the prospective readers of your thesis. The two readers are normally members of your advisory committee. You will consult with your advisor about the format and content of the proposal. Kristen has a file of recent thesis proposals that you may consult for additional guidance. The absolute final deadline for completion and approval of the thesis proposal is *before the start of the fifth semester*. Failure to meet the deadline may be grounds for termination from the program. A copy of the thesis proposal signed by your two readers must be submitted to Kristen for inclusion in your student record at least two weeks prior to the date of the Graduate Board Oral exam (next section).

(3) *Graduate Board Oral Examination (GBO)*: During the first term of the third year of residence, students are expected to present themselves for a comprehensive University examination, an oral exam with five faculty members, three of whom will be from outside the Department. This is the so-called Graduate Board Oral or “GBO” exam. The exam can cover anything relevant to your program but usually focuses on the thesis proposal. General science questions are fair game. After you pass the comprehensive examination for the Ph.D. degree, you are expected to engage fulltime in research under the guidance of your supervisor. The absolute final deadline for the GBO exam is before the start of the seventh semester. Failure to meet the deadline may be grounds for termination from the program. Please note that the GBO exam is a University requirement.

Kristen will need at least six weeks advance notice to schedule your GBO and receive approval from the Graduate Board. Copies of your approved thesis proposal must be distributed to your GBO committee at least two weeks prior to the scheduled exam date.

(4) *Thesis Dissertation*: Your advisor will be the first reader of your thesis. Remember that you will need a second reader for your dissertation. The second reader is normally a member of your advisory committee. In the end, both readers sign a letter that recommends acceptance of your thesis to the Graduate Board. The faculty takes this seriously and you should too. Select both readers early and keep them informed of your progress or lack thereof all along. Changes in personnel are of course possible as your research develops, but keep your readers informed.

(5) *Thesis Presentation*: The final hurdle is the dissertation presentation. This happens right at the end and is usually a pleasant occasion for all concerned. Each student is responsible for inviting at least five E & PS faculty members, who must certify that the presentation is satisfactory before the degree can be awarded. The thesis presentation can take the form of a Journal Club or seminar and should be about 50 minutes in duration. It will be announced explicitly as a thesis presentation.

A few guidelines on what is expected in the dissertation presentation may be helpful. The presentation should not assume that the audience is familiar with portions of the work presented in earlier seminars or Journal Club. It should be organized as a coherent, self-contained seminar presentation, and should generally include:

(a) A brief opening outline of the overall content of the dissertation, a summary of the major problems investigated, and a statement of why those problems are important and how they relate to other research in the field;

(b) An extended discussion of the dissertation as a whole (or, where this is impractical, a discussion of several topics selected from the dissertation); and

(c) A concise summary of the main conclusions reached, emphasizing their implications for the field as a whole.

2. The M.A. Degree.

The Department does not offer a program that specifically leads to a Master's degree alone. Students, however, may receive the M.A. degree under two circumstances. First, they may receive it along the way to completing the Ph.D. degree following their passing the DQE and taking two years of coursework. If you qualify and would like to receive the M.A. degree, please inform Kristen Gaines. Second, the M.A. degree may be awarded to students who pass the DQE and take two years of coursework but are not allowed to continue for the Ph.D. degree.

D. ACADEMIC PROGRESS CHECK LIST

Please bring the check list to each end-of-semester evaluation meeting with your advisory committee, completed to the extent appropriate to your level of progress through the program.

Name _____

1. Responsible Conduct of Research Training. Second year, intersession recommended.

Date completed _____

2. Departmental Qualifying Examination (DQE). Second year, third semester recommended. Absolute deadline is the end of the exam period of the fourth semester.

Date completed _____

3. Thesis Proposal, Approved by Two Faculty Members. Second year, fourth semester recommended. Absolute deadline is before the beginning of the fifth semester. The proposal must have the signed approval of two faculty members.

Date completed _____

4. Graduate Board Examination (GBO). Third year, fifth semester recommended. Absolute deadline is before the beginning of the seventh semester. The scheduling request must be submitted to Kristen Gaines at least six weeks prior to the proposed date of the GBO exam and the approved thesis proposal must be submitted at least two weeks prior the exam date.

Date completed _____

5. Thesis, Approved by Two faculty Members. The thesis must have the signed approval of two faculty members.

Date completed _____

6. Thesis Presentation. The thesis presentation must be certified in writing as satisfactory by at least five E & PS faculty members.

Date completed _____

E. FINANCIAL INFORMATION

1. Student Financial Support – Academic Year.

You should realize that the support offered to you for this academic year is ONLY FOR THIS ACADEMIC YEAR. Our graduate student support comes from a variety of sources, including University and Departmental funds, research grants and contracts, and other outside sources. We are doing our best to generate as much support as possible, but it is very difficult to predict funding levels far in advance. We will make tentative allocations of student aid for Academic Year 2015-2016, based on our estimate of the funds that we will have available, later in Academic Year 2014-2015. Some grants may not be awarded, however, and last minute changes may have to be made.

You can maximize your chances for continued support by (1) obtaining your own outside fellowship or grant support; (2) doing well in your courses; (3) getting involved in research early so that at least one professor knows your capability and interests. Departmental funding is only guaranteed for four years of study and is contingent on your making satisfactory academic progress as well as the availability of funding. After the fourth year, funding is provided at the discretion of your advisor only. If your advisor cannot support you for part or all of a fifth year, you should expect to have to provide your own funds or to borrow money through the University for a fifth year. After that, you are politely asked to vacate your office, except in the event of special hardship.

Note that for international students, lack of funding may have visa implications. Please contact the OISSS to discuss any issues that may arise.

2. Student Financial Support – Summer Months.

The Department has no funds to pay stipends to students over the summer. They must rely on their advisor's research grants or their own initiative.

The Department administers several funds that can be used to support summer laboratory research or fieldwork. The funds available, however, are limited, and they are for research expenses but not stipends. Travel costs, meetings, and workshops are not considered eligible fieldwork expenses. You can help greatly by obtaining your own support from outside sources such as various scientific societies. Discuss the possibilities with your advisor, and submit your applications well before the deadline. If – despite your best efforts – you are unable to support yourself, submit a brief proposal with a bare-bones budget to Teresa Healy by the deadline provided at the end of each semester; the available field research funds will be allocated after taking into account your needs and the efforts you have made to obtain outside funds, and again, are not for stipends.

3. Health Insurance.

The cost of individual health insurance FOR ACADEMIC YEAR 2014-2015 will be paid in full by the University. Students must sign up for the insurance online at Aetna Student Health's website http://www.aetnastudenthealth.com/stu_conn/default.aspx or at the Registrar's office. Students also have the option of signing a waiver form if they are covered by other insurance. Copies of the health insurance coverage must accompany the waiver form. Students are responsible for re-enrolling in the health insurance program each year. If you have any questions in reference to the insurance requirement, feel free to contact [Stephanie White](#), Assistant Registrar, Student Insurance, at 410-516-8079.

4. Payroll.

All students are paid on the 15th and the last day of each month, from September 1 to May 31. Payroll concerns or questions should be addressed to Kristen Gaines or Teresa Healy. Students may choose to have their pay directly deposited into a personal checking or savings account. Direct deposit enrollment forms may be found in the main office. If you are enrolled in direct deposit, you will not receive a paper paystub. The University now uses an online Human Resources portal where you can access your payroll information, including pay stubs, taxes and personal information:

my.johnshopkins.edu.

5. Taxes.

Taxes for U.S. citizens and resident aliens will be withheld from salaries and wages included in your paycheck based on the number of personal exemptions or allowances you declared on withholding forms (federal form W-4 for federal taxes and form MW 507 for Maryland taxes if you are living in Maryland). Under current Internal Revenue Service regulations, members of the University community who anticipate no income tax liability for any given calendar year **MUST** file new federal and state withholding exemption certificates with the University to take effect 15 February of that given year. To be eligible for exemption from income tax withholding, faculty, staff and students must certify that they incurred no tax liability for the prior year, and that they anticipate no tax liability for the current year. The University does not withhold taxes from fellowship payments. This does not necessarily mean that you are exempt from paying taxes on this income.

F. INFORMATION FOR INTERNATIONAL STUDENTS

1. Office of International Students and Scholar Services.

348 Garland Hall

www.jhu.edu/iss

Phone: 410-516-1013 E-mail: theworld@jhu.edu

All international students, fellows, and visiting scholars, regardless of sponsorship, ***are required upon arrival*** to visit the office of International Scholar and Student Services to provide the necessary passport and visa information vital to the records of the university. Be prepared to present your passport and other pertinent travel documents. Please be aware that federal regulations governing international students and scholars have changed dramatically in recent years. In order to avoid severe penalties, international students and scholars must always maintain lawful status while present in the United States. Registration in the School of Arts and Sciences is not considered complete until non-citizen status has been documented by the office of International Scholar and Student Services.

2. Identification Number for Non-resident Alien Taxpayers.

Effective January 7, 1997, all nonresident aliens will be required to have a valid social security number or Individual Taxpayer Identification Number (ITIN). A social security number is required if the student is receiving a wage. An ITIN is required if the student is receiving a stipend, scholarship, or insurance support. ITIN applications (Form W-7) are available in the Office of Student Financial Services and the Chemistry Academic Office.

Listed below are the addresses for the Social Security Office and the Internal Revenue Service:

Social Security Office

Rotunda, 711 W. 40th Street, Suite 415

OR

1010 Park Ave, Suite 200

www.socialsecurity.gov

Internal Revenue Service

Fallon Federal Building, 1st Floor

31 Hopkins Plaza.

<http://www.irs.gov/>

**G. DEPARTMENTAL FACILITIES, SERVICES, AND POLICIES
(IN ALPHABETICAL ORDER)**

1. Bulletin Boards.

Watch the bulletin boards at various locations in the building for job and meeting announcements, financial aid, and other information.

2. Computing and IT Matters.

The equipment in the Computer Room, Olin 145, and the Singewald Library can be used free of charge. Our IT contact is Ken Rutledge. He can be reached at 6-0581 or at krutledge@jhu.edu. If you have more extensive needs, see your advisor. Your advisor will have accounts on the Departmental and University systems.

3. Conflict Management.

Conflicts can arise either between students or between students and faculty. If the conflict cannot be resolved among the parties involved themselves, the Chair is always available to hear about conflicts and facilitate their resolution.

4. Copy/Telephone/FAX.

Charges incurred for the personal use of UPS and FedEx services or for postage must be paid for at the time the service is rendered.

The fax machine (410-516-7933) is located in the main office. Students will have access between the hours of 8:30 a.m. to 4:30 p.m.

5. E-mail Accounts and Department Listserv.

JHED is the University's web directory. All faculty, staff, and students are included in the directory; however, individuals have the ability to determine which data elements may be accessible on both the Intranet and Internet levels. Members of the Hopkins community are granted secure access to the directory via their user IDs and passwords.

The Department maintains listservs to communicate with members of the department. Please make sure that you provide updated email information (JHU emails only) to Kristen Gaines so that you may continue to receive information in a timely manner.

6. Emergency Health Care and Emergency Incident Reporting.

If you are injured while in a lab as a research or teaching assistant, you are required to report to Occupational Health, 6th floor of the Wyman Park Building during regular working hours. At all other times or in the case of a severe injury, go to the Emergency Room of Union Memorial Hospital (two blocks east of the University on Calvert and 33rd Streets). Students may also seek assistance from the departmental office at 6-7135 or Olin 301.

If you are injured at work, please notify your supervisor immediately and contact the Department of Occupational Health Services at 410-516-0450. If you observe conditions or practices you consider unsafe, contact the professor in charge of the research laboratory. Hazardous situations outside of a specific laboratory should be brought to the attention of the Facilities Manager, the Safety Officer, or the Department Chair.

7. Key Policy for Olin Hall.

The Department lends keys to those who have the permission of a faculty member or the departmental administrator. You will be asked to sign for any keys that you borrow and to return them at the end of your stay. There is a charge of \$30.00 for each lost key. Everyone who uses Olin Hall depends on your vigilant handling of your keys for their security while in the building. Failure to return your keys may result in your grades being withheld.

8. Laboratory Safety.

Safety is also a top priority of the Department and the University. If you feel that any practices or procedures in the building are dangerous, consult the Departmental Safety Student or speak with one of the staff members in the main office. If it is an emergency, either call the Office of Health, Safety and Environment (6-8798) or Security (6-7777).

9. Rock Preparation Room.

All students who wish to use the equipment in the rock preparation room should make an appointment with the graduate student in charge so that he or she can check your technique and provide instruction when necessary. If you wish to do any unusual or difficult cutting jobs, please check with him or her first.

10. Security.

While security is a top priority of the Department and the University, Homewood Campus is located in a large city. Students should call Security (6-7777) immediately if they see anything irregular occurring in the building.

11. Singewald Room and the Milton E. Eisenhower Library (MEL).

The Singewald Room is a small research library and reading room at the disposal of all members of the Department. It is not a lending library and books may be removed from the room only for copying, to be returned immediately. After use, all books must be re-shelved by the user. Repeat offenders will lose user privileges. Steve Stich is the Singewald librarian, and the graduate student library representative changes each year.

The full JHU collections are sited at or accessed through the Milton E. Eisenhower Library (MEL). Steve Stich is the MEL librarian who specifically handles needs, questions, and problems of E & PS.

H. UNIVERSITY FACILITIES AND SERVICES (IN ALPHABETICAL ORDER PLUS MISCELLANEOUS AT THE END)

1. Athletic Center.

The University Athletic Center may be used by graduate students and their spouses. The facilities include two swimming pools, squash courts, tennis courts, ping-pong tables, sauna, and several gymnasiums and outdoor fields. Further information may be obtained online, <http://web.jhu.edu/recreation>, or by calling ext. 6-5229.

2. Barnes & Noble Johns Hopkins Bookstore.

3330 St. Paul Street Baltimore, MD 21218

Store telephone: 410-662-5850

Monday – Saturday: 9:00 a.m. to 9:00 p.m. Sunday: 10:00 a.m. to 9:00 p.m.

3. Food Services.

Charles Street Market (Wolman Hall)

The fully stocked campus market features everything from fresh produce, organic staples and gourmet treats to a wide array of campus essentials all at a fair price.

Alkimia (Gilman Hall)

Coffee bar also offers baked goods, sandwiches and salads.

Daily Grind (Brody Learning Commons)

Coffee bar with some food offerings.

Fresh Food Cafe (AMR 3)

A friendly, comfortable, all-you-care-to-eat “residential restaurant” where you can watch the preparation of made-to-order meals from the grill, deli, or salad bar or venture to one of the many multi-stations serving international and home-style entrees. If you keep Kosher, “FFC's” Star K certified dining options called “Taam Tov” will keep you feeling satisfied and energized.

Levering Food Court (Levering Hall)

The main, retail food court located right in the center of campus. Customers can find everything from hot soup, homemade burritos and crisp salads made in front of your eyes to grilled favorites, made-to-order sandwiches, homemade chips, and fresh sushi.

Nolan's (Charles Commons)

Nolan's is a warm and inviting "campus living room" that sets the stage for the student's most stimulating conversations. Customers can find anything from freshly tossed salads, sandwiches made to their specifications, hand tossed pizzas and calzones baked in our brick oven to grilled favorites and hot, home-style entrees.

Cheaspeake Bay Roasting Company (Levering Hall)

A perfect complement to Hopkins' center for a sustainable future, this cafe offers comfy sofas, wireless internet connections, and full range of delicious and aromatic coffees, sandwiches, and light snacks.

4. Free Bus Service.

Transportation between Homewood and the Medical Institutions:

A shuttle bus operates between the Homewood campus and the medical institutions Monday through Sunday. The bus leaves from IFC at University Parkway between N. Charles and St. Paul Streets with its final stop at the School of Public Health on Monument Street near Wolfe. On weekdays, the shuttle leaves Homewood beginning at 6:15 a.m., and departs East Baltimore from the last trip at 11:50 p.m. The schedules can be viewed on the web at: www.parking.jhu.edu/transportation.html.

Transportation around campus and surrounding neighborhoods (NEW):

<http://www.parking.jhu.edu/bluejayshuttle.html>

5. Graduate Representative Organization (GRO).

The GRO is a group consisting of graduate students representing graduate student issues. It is also a source of funding for various student activities. Its purpose is to provide a forum through which graduate students may express views and implement policies regarding their welfare and goals of Johns Hopkins University. Students are asked to represent the Department each year at meetings.

Office: Levering Hall

Phone: 410-516-7682

E-mail: gro@jhu.edu Web site: www.jhu.edu/gro/

6. Housing.

The Off Campus Housing Office provides information to members of the Johns Hopkins community looking for a place to live near the Homewood, Peabody, and Medical campuses. They are here to help faculty, staff and students who are not required to reside in University housing or for those who are not eligible. They provide a list of private residential and commercial properties in the area that offer leases of various lengths, including short-term and furnished. In addition to their website, the office is equipped with computers, phones, and informational brochures for you to utilize during your search for off-campus housing.

Please feel free to stop by and visit the housing office, which is open Monday through Friday, 8:30 a.m. to 5:00 p.m., or email them at: offcampus@hd.jhu.edu with further questions or concerns. They are located in room 102 of Wolman Hall on the Homewood campus.

<http://www.jhu.edu/hds/offcampus/index.html>

7. Parking.

Parking is available for graduate students on the Homewood campus at any available lot (http://www.parking.jhu.edu/parking_students.html). Generally, this includes the San Martin (\$101/mo.) and South garages (\$101/mo.), and the surface lots (\$64/mo.). Graduate students receiving a paycheck from the university are eligible for payroll deduction to pay for parking. Please direct all parking related questions to the Parking Office, 410-516-PARK or parking@jhu.edu. Please note, parking behind Olin Hall is by special permit only. Violators will be ticketed and/or towed at the owner's expense.

San Martin Garage

Located conveniently at San Martin Drive on Homewood campus, San Martin Garage is within walking distance to Remsen Hall and the New Chemistry Building.

Swipe card access 24 hours a day; Monthly cost: \$101

South Garage

The South Garage is located under the Decker Quadrangle. An elevator provides access to Mason Hall and the Decker Quadrangle.

Swipe card access 24 hours a day; Monthly cost: \$101

Homewood Surface Lot Parking The Wyman East, Wyman West, Stony Run, Muller Deck, 115 West University and Homewood Field lots are surface lots at the periphery of campus. These lots provide reasonably convenient Homewood parking, close to or on the edge of campus, at a lower cost per day than for garages.

Swipe card access 24 hours a day; Monthly cost: \$64

8. Student Assistance Program.

The Johns Hopkins University's Graduate Student Assistance Program (GSAP) provides suitable resources to help students overcome the pressures and problems they encounter during their academic careers. GSAP is a life management resource that can help students identify and manage stress, and other challenging issues, in a healthy way before more significant problems develop. Services are free and confidential. For more information or to schedule an appointment, please contact the GSAP:

Telephone: 443-997-7000 or Toll Free: 866-764-2317

Email: GSAP@jhu.edu

<http://advanced.jhu.edu/students/jhsap/>

9. Student Disability Services.

Federal law and the university define a "disability" as a physical or mental impairment that substantially limits or restricts the condition, manner, or duration under which an average person in the population can perform a major life activity, such as walking, seeing, hearing, speaking, breathing, learning, working, or taking care of oneself. The university is required by Section 504 of the Rehabilitation Act and The Americans with Disabilities Act to provide effective auxiliary aids and services for qualified students with documented disabilities if such aids are needed to provide equitable access to the university's programs and services.

All admitted students who wish to receive accommodations for a disability must initiate the registration process by submitting professional documentation, completing the Intake Questionnaire and participating

in an interview. Additional information regarding the student disability services can be found at <http://web.jhu.edu/disabilities/>.

10. Student Health (Non-emergency).

The Student Health Clinic (ext. 6-8270) is located in the AMR II Building.

http://web1.johnshopkins.edu/shcenter/loader.php?page=grad_health_instructions.html

If you have an urgent, but non-life threatening medical concern or health problem that cannot wait until the next time the Center is open, the Student Health and Wellness Center contracts with CareNet, a nationally accredited on-call service. You can reach them directly at 1-866-523-4725, or, you can call the Security Office (6-7777) and ask for the CareNet phone number. Please be prepared to provide the CareNet staff with your Hopkins ID number. You can also ask campus security will get in touch with the on-call physician for you.

There is also an urgent care facility within driving distance of the JHU campus:

Patient First

Greenspring Station Center

Johns Hopkins Pavilion, Ground Floor

10755 Falls Road

Lutherville, MD 21093

410-583-2777 (Open 8 a.m. to 10 p.m. everyday)

Gynecological services are available through the Student Health Clinic. They provide a booklet detailing the other services available.

I. OTHER POLICY STATEMENTS

The Department, of necessity, reserves the right to change without notice the programs, policies, requirements, and regulations in this handbook.

The Johns Hopkins University admits students of any race, color, gender, religion, age, national or ethnic origin, disability, marital or veteran status to all of the rights, privileges, programs, benefits and activities generally accorded or made available to students at the university. It does not discriminate on the basis of race, color, gender, religion, age, sexual orientation, national or ethnic origin, disability, marital or veteran status in any program or activity, including the administration of its educational policies, admission policies, scholarship and loan programs, and athletic and other university administered programs or in employment. Accordingly, the university does not take into consideration personal factors that are irrelevant to the program involved. Questions regarding access to programs following Title VI, Title IX and Section 504 should be referred to the Office of Equal Opportunity and Affirmative Action Programs, N-710 Wyman Park Building, Homewood Campus, 410-516-8075, TTY 410-516-6225.
